STUDENT PAMPER CLINIC

Our focus is on ensuring graduates are equipped to enter employment and be productive as soon as is possible. As such we emphasize a student's practical capacity to handle clients, conduct consultations and treatments, and be professional in all that they do. The Student Pamper Clinic was created for this – an onsite clinic that exposes students to the rigors of the real world. Staff are on hand to provide support and the college provides all facilities and products to run the clinic. Discounted rates are offered to the public to encourage support. As part of their assessment, all students are required to demonstrate strong practical competency, so students are encouraged to spend time at the clinic (or at a similar offsite facility) to hone these skills. The Student Pamper Clinic offers real world experience in a secure comfortable environment.

All your favourite treatments available and performed by our well-trained students at VERY discounted rates! Available Fridays and only once the students have been trained. Call for availability.

THE BEAUTY SHOP

We can provide you with all your retail products required to start and maintain your business... or if you just need it for yourself.

Saves the student the hassle & expense of travelling to a beauty supplier as we are proudly a one stop beauty spot!

Kits are available for purchase for all modules.

Linen sets (boobtubes, booties etc.) are available!
